

VEHICLE CHECKS

LEADING PROVIDER

OF BESPOKE

VEHICLE CHECKS

Fleets of all sizes have a legal requirement to complete daily vehicle inspections. Failure to do so can lead to hefty fines or even closure of the business. This paper based process is an arduous task for drivers with fleet managers constantly chasing the return of data.

Designed to simplify the vehicle inspection process, the AllOnMobile app makes it easy to schedule, carry out, confirm and follow up all forms of inspection from daily walk-arounds to formalised weekly/monthly safety checks.

Use AllOnMobile on Android or iOS devices, without the need of hiring new developers. There are no upfront fees or set-up costs and you can get rid of the burden of manually doing vehicle checks in just a couple of days.

SAVE TIME

COMPLY WITH THE LAW

BE RESPONSIBLE

Managing vehicle checks with AllOnMobile allows office employees to organize their work more effectively and use the time saved to focus on other, higher priority tasks.

AllOnMobile greatly reduces the risk of an audit by keeping track of all the vehicle checks history. If required, the drivers can instantly present those checks through their mobile device.

Being a responsible employer and complying with rules and regulations is now made convenient and easy. This will save your company time and money as well as greatly reduce the risks associated with operating a fleet of vehicles.
